## **The ACE Fuelcard**

### ***DELIVERING WITH SAVINGS AND SECURITY***

Owner-drivers Colin Graham and Douglas Graham of CDG Road Transport each use an Ace Fuelcard from Abbey Fuelcards to refuel their Mercedes Benz Sprinters.

Why an Ace Fuelcard? “We chose the Ace Fuelcard,” commented Colin Graham, “for the savings it offers on fuel, combined with the convenience of the site network. We travel primarily on the motorways and A roads in Scotland and the north of England, and the many edge-of-town ACE sites, close to motorway and main road junctions, suit us perfectly.

Colin and Douglas provide a nationwide delivery service – often overnight express – and are on call 24/7 to meet customer requirements. They can be carrying anything from tractor and truck parts and lubrication oil to smart boards for schools. “CDG is all about service,” commented Douglas, “and the Ace card helps us keep costs down and therefore offer a highly competitive rate for our customers.”

press release

The no frills ACE fuelcard delivers savings *and* security. Weekly savings on fuel, combined with all the security advantages of fuelcard transactions over cash.

Draw fuel with the ACE card and you will typically **save 2p – 3p per litre** compared with pump prices. Yet there is **no charge** for the card - the monthly £1.00 fee is waived if you use the card just once in the month - and **no charge** for secure and confidential online access 24/7 for all account management services, including ordering and stopping cards, account checking etc.

Furthermore, with an ACE card you will also obtain significant FREE credit. All invoices are paid automatically by Direct Debit, so the ACE card is hassle-free and means you don't pay for fuel purchases for up to 2 weeks.
